Short Sheet # 3 **Christian Leadership and Lifestyle**

For some of you summer staff is your first experience in Christian leadership. It is important to remember that campers look to you as part of the leadership team. Your words and actions will make a difference to them, and the tone of the camp. Remember that leadership does not always mean the up front, loud, all the attention on me type of role. Leadership on summer staff is meant to be a quiet witness into camper's lives. We are there to serve and care for campers from the background by the way we work and the way we live out our Christian lives.
